

Quality Insurance Solutions

Our Services

Private Clients

Hunter Broking offers a comprehensive Insurance Broking service for Prestige Homes, Cars and other Personal Items. We endeavour to find the most suitable policies and offer peace of mind solutions for replacement, repair and additional unexpected costs that may arise after an incident occurs.

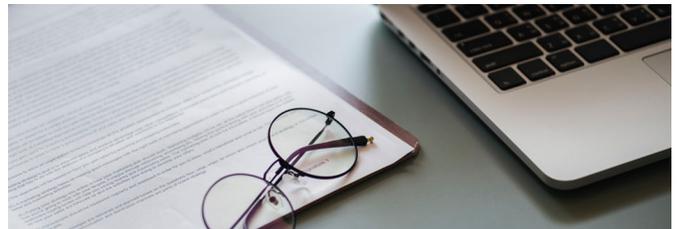

Corporate Insurance

We specialise in corporate insurance programmes and have proven to be very competitive against the larger international firms. We have developed and secured insurance proposals for clients within the Technology, Mining, Banking and International Distribution sectors. Hunter Broking encourages the opportunity to submit a tender for your insurance programme.

Commercial Insurance

Commercial Insurance is complex and often requires the assistance of a Qualified Broker. Hunter Broking approach Commercial Insurance with a technical focus, utilising our product matter experts and extensive experience. Our attention to detail is evident in our claims results across a diverse range of industries.

Claims Management

With a strong focus on the end result, we manage your claim from start to finish and provide regular updates along the way. Hunter Broking negotiates on your behalf, ensuring the end result meets your expectations. This component of our service is our strongest asset; we want our clients to feel secure.

About Hunter Broking

We're here to help businesses and individuals protect their hard earned assets and successes. We are patient in our approach and like to educate clients on how we have structured their programme and why we are different, there are methods behind our workings.

Understanding and purchasing Insurance can be daunting and confusing, it's hard to know if you're getting the best deal or if you are adequately Insured.

The Process

Stage One

Initial Meeting: Whether in person or by phone, we will organise a time to discuss your personal or business insurance requirements.

Stage Two

Risk Assessment: Our subject matter experts will conduct a risk assessment and provide detailed advice and recommendations on what products will best protect you and your business.

Stage Three

Quotation: We will present the information we have obtained to a variety of recommended Insurance Companies that are most competitive for your requirements.

Stage Four

Analysis: Once all quotations are received, we will review the premium, terms and conditions to ensure the product will adequately protect you and the premium is competitive against current market standard rates.

Stage Five

Negotiation: We aim to present the most cost effective solution to our clients. Once we have sourced the right coverage option, we will work closely with insurers to obtain a competitive premium. We understand that insurance is a major financial commitment, particularly for start up businesses.

There are several product offerings on the market and all policy wordings contain a variety of restrictions and exclusions that are often missed. Our technical approach ensures that we dissect this information and provide you with a solution that best meets your needs.

We are honest, authentic and reliable insurance brokers, who remain consistent year on year. We welcome all new clients to join our group and experience why we are different.

Stage Six

Presentation: Your designated Account Manager will present our recommendation insurance programme to you and advise the intricacies of how to structure your insurance program. This is a great opportunity to discuss any further enquiries and make any relevant adjustments that may be required.

Stage Seven

Implementation: Once cover is requested to be implemented, we will place cover with the Insurance Company and assist with the completion of any final paperwork, including application forms or monthly premium funding contracts.

Stage Eight

12 Month Commitment: During the course of your insurance contract, we will act as your dedicated insurance broker, someone you can rely on, whether this be asking for advice, making a policy adjustment or lodging a claim, our commitment to you is ongoing for the duration of our professional relationship.

About Josh

Josh Ryan, Hunter Broking Group's Founder and Director, is an advocate for Risk Management and Asset Protection. Josh thoroughly enjoys learning the intricacies of all industries and educating clients on why insurance should be a conscious focus.

In the midst of purchasing his own commercial investment and commencing his own business, Josh experienced first hand how important it was to best protect such a large financial commitment. During the last 10 years of Commercial and Corporate speciality, Josh has realised his passion for helping businesses identify risks and supporting them when things do go wrong.

Josh is your trusted and reliable advisor, a knowledgeable resource with a wealth of experience in claims management. He is always there for his clients and stresses the importance of having a long-term relationship with someone who truly understands your business.

The best advice Josh can provide is, "Don't quote with multiple brokers, interview them first and continue with who you feel is most reliable, trustworthy and experienced in your field".
